All about me:

My name is Gugulethu Cenge, i was born in Israel then grow up in South Africa. My family is from Eastern cape at umtata. I am Xhosa there are different celebrations every month, for example teenager boys being introduced into manhood.

Ulwaluko, traditional **circumcision** and **initiation** into manhood, is an ancient initiation rite practiced by the **amaXhosa**. The **ritual** is traditionally intended as a teaching institution, to prepare young males for the responsibilities of manhood. Therefore initiates are called *abakhwetha* in **isiXhosa**: *aba* means a group, and *kwetha* means to learn. A single male in the group is known as an *umkhwetha*. A male who has not undergone initiation is referred to as *asinkwenkwe* (boy), regardless of his age, and is not allowed to take part in male activities such as tribal meetings.

THEY WILL PLAY DANGEROUS GAMES FOR MEN.

After they are done with the ceremony, they wear new suits that show that they are now new men.
