My experience living in Canada:

I have only lived in Canada for about 4 weeks now. So most of my experience's are more like finding out what is new here. I can give you some examples like, you all drive on the WRONG side of the road. When I change class I go from room to room here, back home the teacher goes from class to class. At home I would have my dad take me and my sister

to school, on his motorbike, now I ride the school bus. My house here has a dishwasher, before I was the dishwasher. Back home I was in a class of 53 students now I am in a class of 23 students. Back home I could get buy food off the street outside my school, there is no food here on the street. My old school I had to wear a uniform, now I can dress in fun clothes.
