City of birth: Riyadh

Country of birth: Saudi Arabia

All about me: Hi I'm Khaled, I was born at april 22nd 2002. I'm the 5th and last kid in my family. I lived most of my life in Saudi Arabia. Most of Saudi families visit family members like (grandparents or parents) every week at least once, my parents visit their families like 3-4 times a week. My family traveled so many places in the world and mostly Europe and they travel to it every once and awhile. My family came to canada in 1985 and left at 1991, 11 years later my young brother went to Kamloops at the age of 18 and studied at TRU then my older sister came to Kamloops At 2010 and then my mom and I came at 2013 and then my brother left to study in New York at 2015. Living in Canada is fantastic although the first two years I start to get homesick and miss my family and friends back in Saudi Arabia But not anymore, Canada has a great weather like cooled at winter warm at spring, hot at summer and windy at fall. Canada is a fantastic place to be in.
