

Name: Saori Abe

City of birth: Tokyo

Country of birth: Japan

All about me:

I have dad and mom, I have 5 cousins. I don't know exactly to my parents works. But I'm sure they are doing best for my studying.

My cousins are close to age so, we are very good relationship.

My hobbies are moviegoing, playing baseball and to collect favorite baseball collectibles. I like Specter, Spider-Man, Harry Potter and disney movie.

Now, I'm not interested in anything.

When I came before, I went to private middle school. Japan is almost deviation value-oriented country, success if you go to a high deviation value school, it was unreasonable failure.

Actually, it is quite good in Japan sound that study abroad that's why I came here but the first was impatient in earnest English went still not entirely sure. Now, I'm working hard for the future of my own, not the sound of Japan. That's what my experience in Canada.
