All about me:

My name is Sherlyn, I am 14 years old. I study at junior high school. In Kunming, the weather is spring all the year round. There has many delicious food, such as Crossing the bridge noodles, Curd noodle, and stinky tofu. Crossing the bridge noodles are the addition of noodle and other food in good goose soup simmer a unique way of eating. Stinky tofu, smell is not very good, but very good to eat. Also, there are many interesting places.

For me, I like to play the piano, I always play after school. I especially like Beethoven's. Also, I play tennis, I joined tennis club. We play 2 times a week. Here I have a lot of free time. I can go outside with my friends and I have more time to do what I like, I don't need study all the time. But in China is very different here. In junior high and high school are busier and harder than here. China have much homework and many exam.

I have been in Canada 6 months. Here is a very large area of a country. Canada is beautiful, but cold in the winter. In here, people are friendly, if you have some problems, they will help you. I hope my English is better that I can communicate well with others. Of course, I also need my study well. I don't want go back in the future, I would like to stay here or go to America.

I am very happy come to Canada.
